DETAILED ACTION

Terminal Disclaimer

The terminal disclaimers filed on 17 January 2007 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of applications 10/727,026 and Patent #7,091,653 (both filed 02 December 2003) have been reviewed and are accepted. The terminal disclaimers have been recorded.

Allowable Subject Matter

Claims 1-7, 9, 10, and 12-14 are allowed.

The following is an examiner's statement of reasons for allowance:

With respect to Claim 1, the prior art of record teaches many of the elements of the claimed invention, including a light source, comprising: an LED that emits excitation light; a polymeric multilayer reflector that reflects the excitation light and transmits visible light; a phosphor layer comprising particles of phosphor material dispersed in a binder, the phosphor material emitting visible light when illuminated with the excitation light; wherein the polymeric multilayer reflector reflects excitation light onto the phosphor material layer, and the phosphor layer is disposed between the LED and the polymeric multilayer reflector.

However, prior art does not teach or fairly suggest the light source wherein the entire phosphor layer, including the binder, is spaced apart from the LED, in the manner required by Claim 1.

Claims 2-7, 9, 10, and 12-14 are allowed by virtue of their dependency upon Claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Anastasia Midkiff whose telephone number is 571-272-5053. The examiner can normally be reached on M-F 7-4.
